What is College Connect?

It is a platform for college faculties and students to interact, share, create, learn, and grow their knowledge and strength. This also has your academics intact such as the attendance percentage, internal marks, semester marks, and so on. It also has a personal routine feature that we can modify to our respective techniques of study.

Why College Connect?

Most engineers come out of every college empty-handed due to the facts following below:

- **Lack of communication skills**
- **Lack of learning new things every day**
- **Lack of seeing what is happening around them.**
- **Lack of mentorship.**

So we introduce College connect to connect students-students, faculties-students even faculties-faculties and create, post, learn, and grow and build a healthy community together.

When College Connect?

As said in the early days “Learning has no age bar” similarly “College Connect has no time bar”. Learning can be done 24 by 7.

Researches:

Contemporary educational research has found that student engagement and disengagement have a relevant influence on learning outcomes. However, research on the influence of teacher-student relationships in the engagement of students with special educational needs (SEN) is scarce.
